Profile

Computer Science student at LUMS with strong foundation in algorithms, data structures, and systems programming. Interested in software engineering, embedded systems, and applied problem solving. Experienced in mentoring, technical volunteering, and student leadership roles.

Education

Lahore University of Management Sciences (LUMS) 2024 – Present
BS Computer Science

- Relevant Coursework: Data Structures & Algorithms, Discrete Mathematics, Probability, Artificial Intelligence, Computer Systems, Network-Centric Computing, Calculus II, Linear Algebra
- Current Courses: Algorithms, Network-Centric Computing, Probability, Calculus II, Writing & Communication

NJV Government Higher Secondary School, Karachi

FSc Pre-Engineering 2022 – 2024

Matriculation 2020 – 2022

- Matriculation: 94% (Top position in school)
- Intermediate: 80%

Technical Skills

Programming Languages: Python, C++, JavaScript (basic)

Core CS: Data Structures, Algorithms, OOP, Problem Solving, Computer Systems

Embedded Systems: Arduino, Sensors, Microcontrollers, Basic IoT Systems

Tools: Git, GitHub, VS Code, Arduino IDE, WordPress, LaTeX

Experience

Academic Mentor – NOP SCS, LUMS 2025

- Mentored 50+ incoming students during onboarding program
- Assisted students in LCAT preparation and academic transition
- Supported orientation sessions and peer learning activities

Director Media & Design – Hum-Aahang Society, LUMS

2025 – Present

- Led design and media operations for society events and campaigns
- Managed branding, posters, and digital content workflows

Volunteer – NJV School Technical Content Initiative

- Contributed to educational content translation project (English to Sindhi)
- Worked on video editing, subtitles, and content structuring for STEM material

Projects

Python Tic-Tac-Toe Game

- Developed a console-based game using Python with modular logic design

Arduino Robotics Projects

- Built embedded systems including seven-segment clock and scoreboard system
- Worked with sensors, motors, and hardware-software integration

Basic Web Development (Self-Learning)

- Built WordPress-based websites and practiced frontend structuring

Achievements

- Selected for LUMS NOP (National Outreach Programme)
- Fully funded scholarship (need + merit based) at LUMS
- Pakistan Science Foundation finalist (STEM)
- Silver Medal – Karachi Open Chess Tournament (peak rating 1200)
- Student of the Year – NJV School
- Secured admission offers from LUMS, NUST, GIKI, and IBA

Extracurricular Activities

- Basketball player (NJV team, Karachi-level competitions)
- Chess competitor (active in local and regional tournaments)
- Student Council candidate (170+ votes secured in school election)
- Organized cultural and community events (Holi/Diwali event, student trips)
- Volunteer in flood relief fundraising (Sindh 2022)
